BRIGHTLOOP × N8N

Your renewal: two ways to fit the budget and keep what works

Sam (Automation) · Priya (Procurement) · Paula (Renewals, n8n) · your CSM

Enterprise plan · renews 14 December 2026

TODAY · 15 MINUTES

What we'd like to leave this call with: one option you prefer and a date to sign

1 min	Agenda, and who decides and signs
3 min	Your situation: budget, timing, usage
3 min	Support this year, and what n8n runs for you today
3 min	Two options, side by side
3 min	Your questions and what works for you
2 min	Next steps, owners and dates

WHAT WE HEARD

Did we get this right?

- Your budget has been cut.
- Workflow executions are down about **10%** over the last 90 days.
- Procurement asked for: a 25% discount, net 60, no auto-renewal, and a 3-month exit right. And whether a smaller plan could save money.
- Two support escalations this year took too long to resolve.

To find the right option, it helps to know:

· The budget you need to land on

· Is the pressure on **cash** or on **this year's cost**?

· When your fiscal year starts

· Why executions dipped: seasonal, a project ending, or work moving elsewhere?

· Who signs, and how long your PO takes

SUPPORT

Two escalations took longer than they should have. Here is what we're changing.

WHAT	DETAIL
Root-cause review	Our support lead reviews both escalations by **30 October** and shares what happened and what changes.
Top support tier	Included in both renewal options, for the whole term.
Joint support review	A regular check-in with your CSM on open tickets and response times.
Usage session	Your CSM reviews your workflows with Sam to cut wasted executions.

WHAT N8N RUNS FOR YOU TODAY

Before we talk price: what this renewal keeps running

Your usage

Workflows in production	*[CSM]*
Executions per month	*[CSM]*
Change over 90 days	−10%
Teams using n8n	*[CSM]*

What it would take to replace

Processes that depend on it	*[CSM]*
Hours saved per month	*[CSM]*
Rebuilding the workflows	engineering time
Self-hosting the free edition	no SSO, Git, log streaming, SLA

TWO OPTIONS · YOU CHOOSE

Lower cost now, without losing what works

A · Keep your plan

Same Enterprise plan · 2 years · paid annually

€32,400 year 1

Year 2	€35,910
2-year total	**€68,310**
vs. staying at €36,000 a year	€3,690 less
Payment terms	net 30 or 45

B · Right-size and lock

Smaller execution allowance, sized to your usage · paid upfront

€28,800 per year, fixed

Price locked for	2 or 3 years
Total	**€57,600** (2y) · **€86,400** (3y)
vs. today	€7,200 less per year
Payment terms	net 60

Both include: top support tier · plan size fixed for the term · auto-renewal starts only after the term, with a 90-day reminder from us · valid until **30 November**

PROCUREMENT'S FOUR POINTS

Where we can meet you, and what we offer instead

YOU ASKED	ANSWER	HOW WE ADDRESS IT
25% discount	**Not as a discount**	Option A lowers year 1 to €32,400; Option B lowers the cost to €28,800 a year.
Net 60	**Yes**	With upfront payment (Option B).
No auto-renewal	**Clause stays**	It only starts after your committed term, and we remind you 90 days before.
3-month exit right	**Not offered**	Right-size now to what you use, so you're not paying for capacity you don't need. What's the concern behind it?
Smaller plan	**Yes**	That's Option B, priced at list for the new allowance.

NEXT STEPS

From today to your renewal date

Today
Your preferred option and who signs

30 Oct
Support root-cause review shared with you

Within 2 days of your choice
