What we heard, and what we're fixing

- Your budget has been cut.
- Executions are down about **10%** over 90 days.
- Procurement asked for: 25% off, net 60, no auto-renewal, a 3-month exit right, and a smaller plan.
- Two support escalations took too long. **Our support lead reviews both by 30 October**, and both options below include our **top support tier**.

To find the right option:

· The budget you need to land on

· Pressure on **cash** or on **this year's cost**?

· Why executions dipped

· Who signs, and how long your PO takes

TWO OPTIONS · YOU CHOOSE

Lower cost now, without losing what works

A · Keep your plan

Same Enterprise plan · 2 years · paid annually

€32,400 year 1

Year 2	€35,910
2-year total	**€68,310**
vs. staying at €36,000 a year	€3,690 less
Payment terms	net 30 or 45

B · Right-size and lock

Smaller execution allowance, sized to your usage · paid upfront

€28,800 per year, fixed

Price locked for	2 or 3 years
Total	**€57,600** (2y) · **€86,400** (3y)
vs. today	€7,200 less per year
Payment terms	net 60

Both include: top support tier · plan size fixed for the term · auto-renewal starts only after the term, with a 90-day reminder from us · valid until **30 November**

PROCUREMENT'S POINTS

Where we can meet you, and next steps

YOU ASKED	ANSWER	HOW WE ADDRESS IT
25% discount	**Not as a discount**	Option A lowers year 1 to €32,400; Option B lowers the cost to €28,800 a year.
Net 60	**Yes**	With upfront payment (Option B).
No auto-renewal	**Clause stays**	It only starts after your committed term, and we remind you 90 days before.
3-month exit right	**Not offered**	Right-size now to what you use, so you're not paying for capacity you don't need. What's the concern behind it?
Smaller plan	**Yes**	That's Option B, priced at list for the new allowance.
